

Federal-Aid Local Let Projects

Local Government Responsibilities for Materials Quality Assurance

Local Governments must submit the OMR-LAP-1v4 form to the GDOT Project Manager
 Local Government must arrange with GDOT to perform the Materials Testing

-or-

Local Government must hire a consultant prequalified in Area Classes 6.04a and 6.04b to perform the
 Materials Testing and

- Using LAP-OMR-1v4 obtain approval of any Consultant testers.
- Notify or have Consultant notify Contractor at the Preconstruction Conference that this is a GDOT Federal-aid project and that QPL sources and the GDOT project number must be utilized
- Notify or have Consultant notify GDOT TMOS* at least one week prior to any asphalt work
- Ensure or have Consultant ensure that only testing personnel with GDOT certifications perform testing on the project, and all testing must be in accordance with GDOT's Sampling Testing and Inspection Manual
- Complete or require Consultant to complete quarterly Materials Certificate (MC) Checklist and submit to the Materials Audit Unit at GDOT Office of Materials and Research (OMR) as required in GDOT Construction Manual. Contact OMR if you do not have a Checklist prior to work starting on the project
- Provide test results to GDOT through the Field Data Collection System (FDCS) or hardcopy
- Complete or require Consultant to complete final MC Checklist and submit to the Materials Audit Unit at OMR as required in GDOT Construction Manual

Independent Assurance testing will be performed by GDOT based on the names of the technicians submitted on form OMR-LAP-1v4

Federal-Aid Local Let Projects Materials Quality Assurance (Complete for ALL Federal-Aid Local Let projects)

SELECT ONE:

- Request GDOT to perform Materials Testing (Complete Section 1)
- Request Approval for Consultant Quality Assurance Materials Testing (Complete Sections 1 and 2)

Section 1

Project Number/County: _____

GDOT Contract ID Number/Proposed Let Date: _____

Project Description: _____

Local Government Responsible for Letting Project: _____

Local Govt. Project Manager Contact Name & Number: _____

Section 2

GDOT Certified Technicians to be responsible for testing on the project:

1) Roadway Testing Technicians (RTT)- are required to perform field density testing on embankment, pipe backfill, subgrade and all asphalt layers, along with sampling misc. materials

List GDOT Certified Roadway Testing technician(s) who will be performing testing:

GDOT RTT Certification Number	Name/ Employer

2) Concrete **– GDOT Certified Concrete technician(s) are required to perform all field concrete testing (slump, air, cylinders)

List who will be performing concrete testing & GDOT certification number:

GDOT Concrete Certification Number	Name/ Employer

Attach additional sheets as necessary.

**Please note if a Bridge or other major structure is involved: _____

NOTE: Labs performing any testing shall be accredited in the testing to be performed (i.e. AASHTO T-22 or ASTM C-39 for concrete cylinders) by the AASHTO Accreditation Program (AMRL and/or CCRL).

3) Hot Mix Asphalt

GDOT specifications require the Contractor to perform mixture Acceptance testing at the plant. GDOT will perform Verification Testing at the asphalt plant as a part of the existing QPL process. The Local Government is responsible for notifying GDOT's Testing Management Operations Supervisor (TMOS) at least one week prior to start of work.

APPROVED: _____ Date _____
