

Revision Table

The Georgia Department of Transportation Plan Development Process (PDP) Manual will be periodically updated to appropriately reflect GDOT's and FHWA's policies and requirements. An entire chapter or any portion of one or more chapters of the Manual may be re-written and replaced at any time; however, the Manual will be reviewed quarterly for revisions and updated. The latest revision for each chapter will be listed in the revision table.

Page #	Date of Revision	Revision Made (Section & Page #)	Requestor
9,17	November 2011	Definitions	David Norwood
