

ARRA Transportation Funding Commitments and Certification Status

Includes: March 20, 2009 Phase 1 administrative modifications; May 27, 2009 Phase 1 amendment; June 5, 2009 Phase 1 administrative modifications; June 26, 2009 Phase 2 administrative modifications; July 31, 2009 Phase 2 administrative modifications; August 26, 2009 Phase 2 amendment; September 4, 2009 Phase 2 administrative modifications; December 11, 2009 Phase 3 administrative modifications

Explanation: Section 1511 of the American Recovery and Reinvestment Act requires that each funded project be certified, meaning that it has "received the full review and vetting required by law" and that the investment is an "appropriate use of taxpayer funds". This certification is required before any project can be authorized and proceed to implementation. The Governor may make such a certification for all ARRA funds. Governor Perdue has indicated that he will make a certification determination for projects funded under C220, C230 and C240 categories. He will also do this for transit funds allocated by GRTA. Other transit operators which are not state agencies will make this certification independently. This table provides the latest certification status of all projects which were approved through the Atlanta region MPO to date. Any remaining projects still under consideration for a second phase of funding will be included in August 2009.
