Subject: TIP Administrative Modification

Importance: High

To: **GDOT, FHWA, FTA, Gwinnett County, Moreland Altobelli Associates**

Subject: **Special administrative modification to the FY 2008-2013 TIP**

GDOT has advised ARC that unobligated residual funds remain from the ARRA C230 funding category and that no project currently programmed to receive residual funds in the FY 2008-2013 TIP is ready to be let. After consultation between the agencies, ARC has agreed to allocate \$2,000,000 of C230 funds to the following new project to be added to the TIP:

- ARC Project Number (new) - GW-354
- GDOT PI Number (new) – 0010198
- Description – Gwinnett County ARRA Resurfacing Program
- Fiscal Year – 2011
- Phase – CST

The project is being advanced from an existing GDOT lump sum program and is, therefore, eligible to be added to the TIP via an administrative modification.

Due to the urgency in obligating remaining ARRA funds, this change is being processed as a special administrative modification and should be considered effective immediately. The project will appear on the updated list to be released in conjunction with Amendment #10 and the regular 3rd quarter administrative modifications in mid-September.

Please update your files to reflect this change and contact me if you have any questions. As an advance notice, additional special administrative modifications related to ARRA residual funds may be forthcoming between now and September.

Subject: Additional Macon Projects to be funded with ARRA

Ken,

We are in the process of distributing the final amounts of residual stimulus funds and have identified several projects in the Macon TIP that will be funded with C200 ARRA funding. The projects are listed below and I am asking the MPO to approve an administrative modification to the TIP to adjust the fund sources, and in one case the

FY, on these projects. Please call me if you have any questions and please let me know of the MPO's approval of these changes. Thank you!
