

TE Project Selections For FY 2008 & 2009

State Transportation Board members have made their selections for the Transportation Enhancement (TE) projects for the FY '08 and the FY '09 funding. The deadline for submitting applications was June 15, 2007. 285 TE applications were received. Each Board member was allocated \$4.2 million for their Congressional District.

Once applications were received, there were technical reviews by the Department to ensure that the applications met the criteria and federal guidelines. Once the review was completed, the projects were then sent to the TE Advisory Panel for review. The TE Advisory Panel ranked the projects and made recommendations to the Transportation Board. The State Transportation Board then selected the projects for their respective Congressional District.

As a result, 166 new TE projects were added to the program statewide. The list of projects below is sorted by Congressional District.

Congressional District 1

County	Sponsor	Project Name	Federal Share Awarded
Appling	Appling County	Altamaha Technical College Landscape Improvements	\$85,000
Bacon	Bacon County	Bacon Co. Welcome Center	\$175,000
